

Paint Along with Judy!

Zooming direct from Studio Judy G in Watsonville, artist Judy Gittelsohn and her assistant Emily Reynolds brought us a fun paint along demonstration on Saturday, March 26 using Golden's Fluid Acrylics. Our lesson was "How to Paint an Apple."

Guild members received Judy's materials list the week prior to her demonstration and many attendees participated in creating an apple under Judy's tutelage (see images below). With a limited palette (black, red, yellow, blue, white) Judy taught us a "dry brush glazing technique" where the use of small amounts of paint are used, pushing and scumbling the paint around, and keeping your brush out of the water when working from one color to the next as you apply layers. Thank you, Judy, for a fun experience! You may contact Judy at me@judyg.com for inquiries on her upcoming workshops. Information on Golden® Acrylic products, please visit www.goldenpaints.com.
